

Why The Future Of EV Fleet Charging Is Mobile

By: Joshua Aviv - CEO SparkCharge

The World First Mobile EV Fleet Charging Network

Overview

We Power the EV Industry

PROBLEM

Inadequate EV charging infrastructure hinders the transition to sustainable transportation.

✗ PROBLEMS

Limited charging access for fleets

Charging unavailability in remote areas

High infrastructure setup costs

Complex Install

Bad Reliability

☹️ OUTCOMES

Increased downtime and operational costs

Restricted EV usage and adoption

Slowed progress towards environmental goals

12-48 month wait time to install EV charging stations

22% of chargers are experiencing charging failures or equipment malfunctions at a given moment in the United States.

SOLUTION

SparkCharge is the world's largest mobile EV Charging Service

Every 3 Minutes SparkCharge charges a vehicle in the USA

Energy Delivered To Your Fleet

SparkCharge Mobile Charging As A Service allows for on-demand charging, reducing the need for fleets to rely on fixed stations.

100% Turn Key Charging Capability

Patented Mobile DC Fast chargers can be quickly deployed to remote locations, ensuring EVs remain operational anywhere.

Cost-Effective Charging

SparkCharge's service eliminates the need for expensive infrastructure, saving on installation and maintenance costs.

Fleet EV Charging Made Easy

 SPARKCHARGE™

 SPARKCHARGE™

The Only EV Charging Partner You Need

The Results

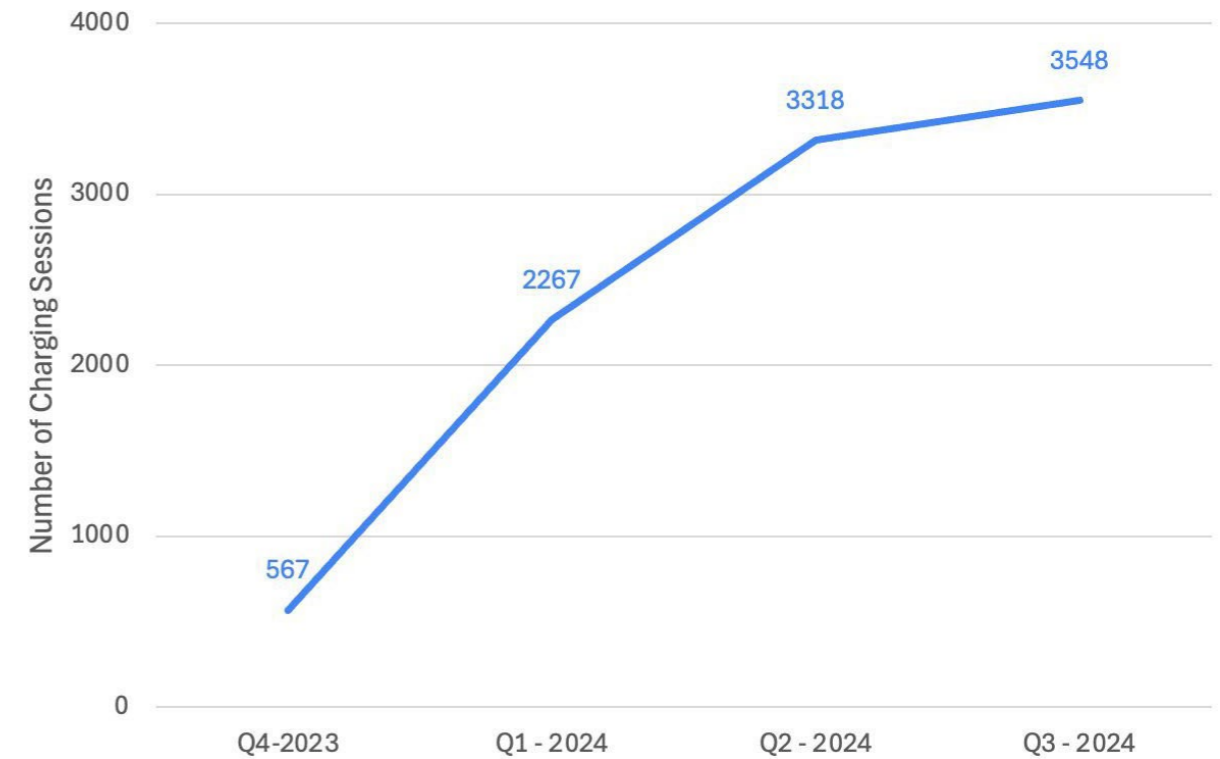

SparkCharge Charging Data

Electrifying Growth:

SparkCharge Fuels 525% EV Charging Surge At North America's Leading Food & Beverage Company

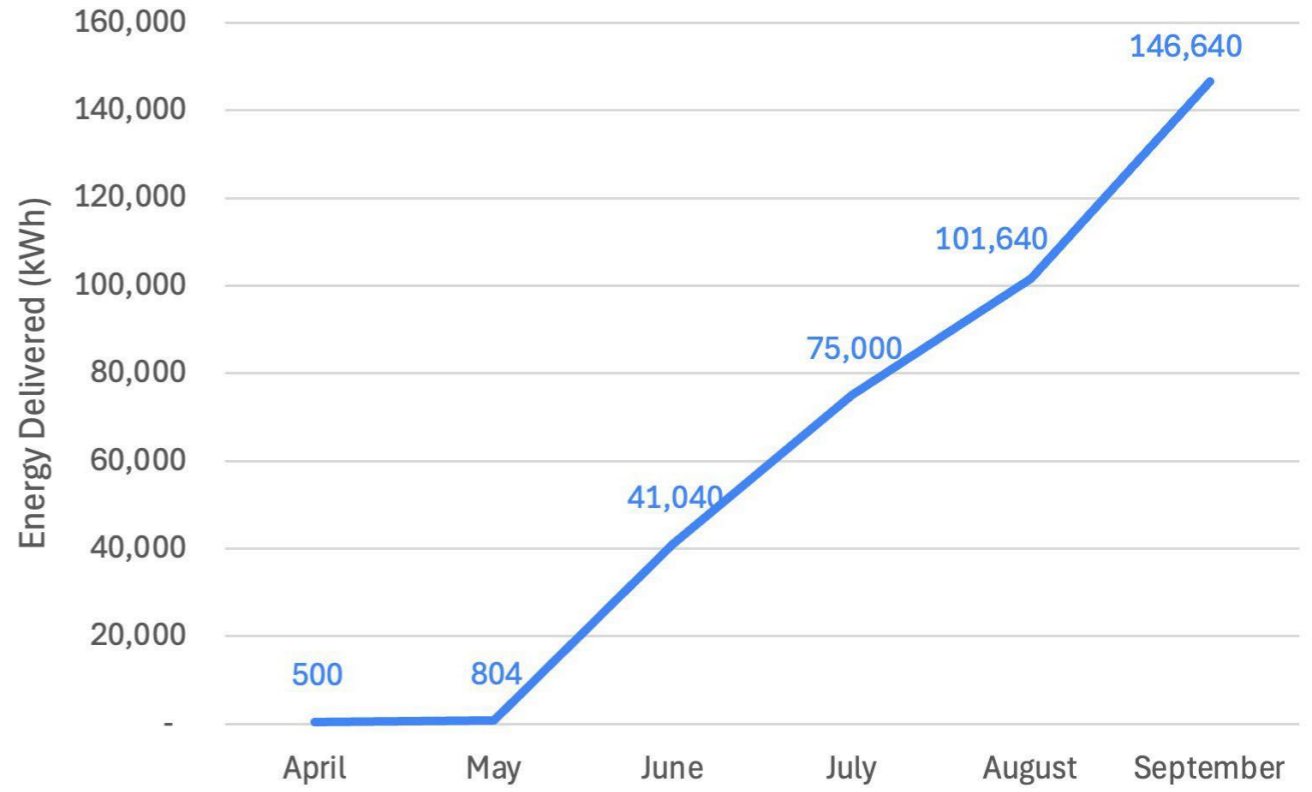

CONFIDENTIAL SparkCharge Charging Data

SparkCharge Supercharges Autonomous Vehicle Rideshare Expansion with 29,228% Energy Growth:

In 6 months SparkCharge scaled an autonomous vehicle company from launch to full scale 24 hour service. In september alone SparkCharge deliver 4.8 Megawatts everyday 100% grid free.

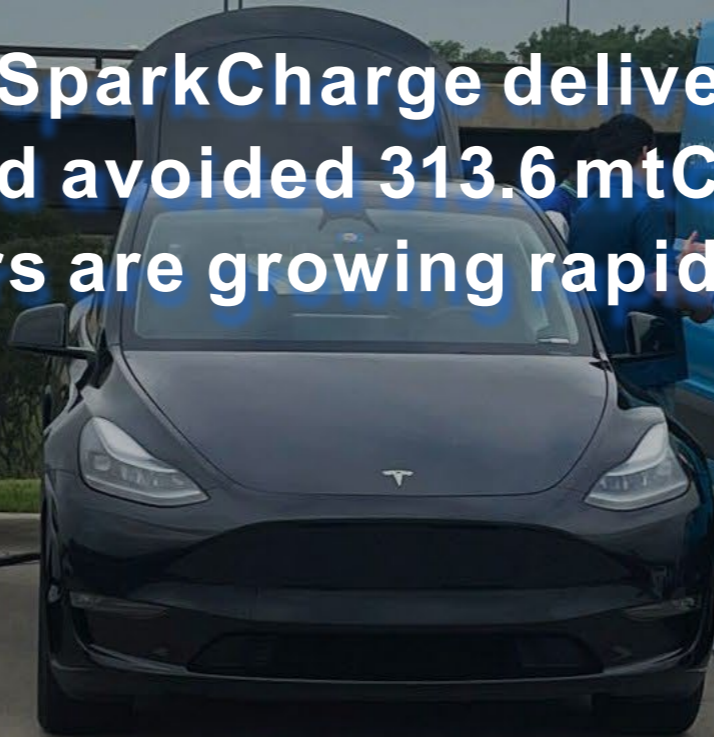

CONFIDENTIAL SparkCharge Charging Data

In 2024 SparkCharge delivered over 1,171,156 kWh and avoided 313.6 mtCO₂e and these numbers are growing rapidly everyday.

THANK YOU

Mobile, scalable EV charging solution

Rapidly expanding market with high demand

Proven traction with innovative technology

Patented Technology with first mover advantage

LETS TALK.
